Your Phone Number	828 247 4559
Suspected Violator's Name *	Adam Crumpton
Suspected Violation Location *	696 Jonas rd

Suspected Violation City *	Rutherfordton
Suspected Violation State *	North Carolina
Suspected Violation ZIP Code *	28139
Responsible Party	Individual
Is the suspected violation still occurring?	Yes
Date of Incident	
Characterized incident as:	
Intention *	Intentional
Violation Method *	Release
Affected Subject(s)	Land, Water, Air

Violation Description *	<p>Property located at 696 Jonas rd Rutherfordton NC 28139 is continuously allowing significant lead contamination to flow into Rutherford county NC watershed protection area, gun ranges spillway (gun range is at a significant higher elevation and is positioned for water run off to flow directly into the creek) is approximately 250 ft from creek, this creek flows into Mckinnney Creek, Mckinney Creek flows into the Broad River. Broad River is the source for Forest City NC water supply. Pictures of this are on Google Earth at this address : 696 Jonas RD, Rutherfordton NC 28139. 696 Jonas Rd is at a higher elevation of the creek, during rain fall, rain run off flows directly into this tributary.</p> <p>The surrounding communities drinking water are supplied from wells very near this water supply. Humans and livestock / wild life have all been affected. The pollution amount obviously rises each day, as thousands of rounds of ammo are shot throughout each week.</p> <p>The breathing quality of air has also been affected due to the amount of sulfar / gun powder propellant, As a COPD victim / asthma the airbourne contaminants , make it impossible to breathe with out a COPD flair.</p> <p>Thus far, Rutherford County has been unwilling to help myself and the community. Please, we need an EPA agent to step in and help resolve this dangerous matter</p> <p>As you know, this is a major health concern for the lives of this community.</p> <p>I was unable to download files, I have pics available off google earth and am more than happy to email them, etc</p>
